PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in **Data Science** with a **strong interest in Cloud Computing, DevOps, and Applied AI**. Passionate about building scalable applications, automating workflows, and solving real-world problems through technology. **Continuously developing hands-on skills in Python, Linux, Git, cloud platforms, and modern DevOps tools through projects**. Seeking opportunities to learn, contribute, and grow as a **Cloud or DevOps Engineer**.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Bash
Operating Systems & Core: Linux (SSH, Cron Jobs, Systemd, File Permissions)
Cloud Platforms: AWS (EC2, S3, VPC, IAM, EKS, Route 53)
CI/CD: GitHub Actions, Jenkins
Infrastructure as Code (IaC): Terraform, Ansible
Containers & Orchestration: Docker, Kubernetes (Pods, Services, Ingress, Helm)
Version Control: Git, GitHub (Branching, Pull Requests)
Backend Development: FastAPI (REST APIs, Pydantic, JWT Authentication)
Applied & Generative AI: Prompt Engineering, LLM Fundamentals, OpenAI API, LangChain, Chroma (Vector Database)

PROJECTS

PhysioBuddy – Computer Vision-Based Physiotherapy Monitoring with AI-Guided Prescription & X-Ray Analysis	Sept 2025 - Dec 2025
Tech Stack: React.js (Vite), JavaScript, Tailwind CSS, MediaPipe, OpenCV, Python, Git, GitHub. Developed an AI-powered physiotherapy monitoring system using computer vision to perform real-time pose estimation, posture correction, repetition counting, and accuracy tracking . Integrated prescription and X-ray upload modules, interactive progress dashboards, session analytics, and AI-driven audio feedback to enhance personalized rehabilitation and recovery monitoring .	
AI-Based Notes Summarizer	Jan 2026 – Feb 2026
Tech Stack: Python, Streamlit, NLTK, TF-IDF, PyPDF2, Python-Docx, ReportLab, Pillow. Developed an AI-powered notes summarization application that generates concise summaries from text, PDF, DOCX, and TXT files using NLP-based extractive summarization techniques . Implemented TF-IDF scoring , keyword extraction, reading-time estimation, compression analytics, and multiple export formats (PDF, TXT, PNG) within an interactive Streamlit interface featuring customizable summary modes and themes.	

CERTIFICATIONS

AWS Certified Cloud Practitioner
AWS Solutions Architect – Associate
Terraform Associate
GitHub Foundations
Docker

EDUCATION

Bachelor of Engineering - Computer Science & Engineering (Data Science) Atria Institute of Technology, Bengaluru, CGPA: 7.9	2023 - 2027
Pre-university Course – Science Arvind PU College, 91%	2021 - 2023
10th Standard Arvind International High School, 87.2%	2021 - 2021
